**Subject:** Lost Coordinates for Sampling Sites

Hi Kathy,

We're working to compile a dataset of all the historical sampling that's occurred at Washington Works to track trends (I believe Roger mentioned this one the call yesterday). Anyway, we've gone through all the data that you've sent us in the past couple of months and there are some sites that were sampled that don't have GPS coordinates. It's not a big deal because they're not PT samples, which are primarily what we're looking at, but I was wondering if you would happen to have coordinates for the following locations:

Location ID	Location ID 2	Field Sample ID	Sample Name	Sample Date
<b>Ex. 9</b>		0317-2940LarkmeadRd	<b>Ex. 9 Wells</b>	03/30/2017
		22447334		09/11/2009
		22674445		11/02/2009
		22447323		09/11/2009
		22449493		09/10/2009
		22447327		09/11/2009
		22447317		09/11/2009
		22447330		09/11/2009
		22449495		09/10/2009
		16253192		10/04/2005
		23140617		12/09/2009
	AT	21992282		05/13/2009

This isn't urgent, so take your time. Please let me know if the coordinates are unavailable for these sites as well.

Thanks for your help!

Kevin
